

Dragonfly Forest®

your place to soar

Dragonfly Forest Testimonial
December 3, 2015

We are so incredibly grateful for the outreach and support of the Heart of Gold Project. Two wonderful project managers found our organization and reached out to us to tell us about their mission and try to get us involved. We were truly impressed by the personal touch taken by the staff at Heart of Gold and their desire to support organizations they believe in.

Dragonfly Forest is a non-profit summer camp serving children with Autism, 22Q Chromosome Deletion, Persistent Asthma, Sickle Cell Disease and Hemophilia. We offer one of a kind programming for kids who are often denied summer camp experience elsewhere, and we work all year to fundraise so that we can keep the cost of camp affordable for all of our families. For this reason, we are always looking for new ways to fundraise.

Heart of Gold came to us at a perfect time with a new way for our donor base to engage. Their team made it so simple for us to participate. We discussed the goals we had, the time frame that made the most sense for our calendar, and sent them our contacts, and they managed everything else. Thank you all so much for all you have done for us, we truly appreciate the care and personal touch with which this project was carried out, and all the opportunities this additional funding has provided for our organization!

For the love of camp,
Kristin McMaster
Camp Director
Dragonfly Forest
