The Heart of Gold Project, NOR Metals Corporation
1515 Market St., Suite 200
Philadelphia, PA 19102

Dear Heart of Gold Project,

Linda Creed Breast Cancer. Org has been active in the Philadelphia region for over 28 years. Our core mission is to give women with limited or no health insurance that much needed screening mammogram and diagnostic tests. Last year alone, we provided 550 Mammograms and Diagnostic Tests, Outreach and Education to more than 3,000 people, was able to help 35 breast cancer patients and their families with financial support and guided over 1,000 women in finding the correct medical resources through our Patient Navigation service.

Linda Creed Breast Cancer. Org would like to commend the Heart of Gold Project supported by NOR Metals Corporation. The implementation of the project required minimum staff time and NOR's support of the project – from providing all the materials and printing costs to covering the postal and shipping expense – made this painless.

We could not be more pleased with the results of this fundraiser! But perhaps the greatest bonus of this fundraiser was the number of lapsed donors who participated, always a challenge in any mature non-profit, that now offers us the opportunity to convert them back into active donors.

Needless to say, we are very happy with the results of this partnership and would recommend other nonprofits to take advantage of this unique fundraiser.

Warm regards,

Donna Duncan
Executive Director
